

Ireland, NUI Galway

NUI Galway organised the multiplier event on the 26th of May with the help from National Conference for relevant audience. This event’s motive was to share the success stories of the businesses that overcome such challenges for industry 4.0 and network with the companies to find synergies in their businesses. The event included line-up of manufacturing leaders, academics and government agencies who engaged in a stimulating blend of keynote addresses and debates. The event featured an extensive exhibition showcasing the latest technological solutions and business services.
